

Attachment 2

Municipal Regulations Regulating Or Prohibiting The Discharge Of Vehicle Wash Fundraising

San Antonio

Article IV Water Conservation and Reuse

Section 34-272-2

Effective March 12, 2005: vehicle wash fund raisers shall be conducted at a vehicle wash facility.

El Paso

Title 15 Public Services

Chapter 15.13

Allows residential carwashing but fundraisers are prohibited unless conducted at a commercial car wash facility.

City of Aliso Viejo

Outreach to Schools and other Civic Organizations regarding Carwash

Fundraisers:

The City sent notices to all the schools and civic organizations including churches (there were about 25 groups total) regarding carwash fundraisers. The letter informed the recipients that **carwash fundraisers are a prohibited activity under the new Storm Water Permit.** However, if the proper BMPs are implemented, such fundraiser can be used by these organizations to raise money for worthy causes.

The letter also requires these organizations to apply for a Special Event permit to host a carwash fundraiser. As part of the issuance of the permit, the applicants have to demonstrate the ability to prevent run-off from entering the storm drain system(s) using appropriate BMPs. Along with the letter, staff enclosed educational brochures regarding carwash fundraisers ("Water Quality Guidelines for Car Wash Fundraisers") as produced by the County of Orange.
